IV. EVALUATION POLICY

The teacher's policy regarding the student: Class attendance is a compulsory component. If the student is absent during the seminar for valid reasons, he/ she can complete the seminar in the handwritten form. For objective reasons (for example, illness, employment, internship), training can take place online upon agreement with the dean's office (platform Microsoft Teams)

Academic Integrity Policy: Writing off during ongoing testing and taking the exam is prohibited (including using mobile devices). Mobile devices are allowed to be used only during online testing and preparation of practical tasks during class.

Deadlines and Rescheduling Policy: Assignments that are submitted late without reason will be graded at a lower score (75% of the maximum possible points for the activity).

V. FINAL ASSESSMENT

The final control in the semester 1 is in the form of a credit. The evaluation of the knowledge of the students is carried out during the current control based on the results of all seminars and individual research work. The maximum number of points for the current control is 100 points. Credit is issued on the condition that the student completed all types of educational work and received at least 60 points. In case of an unsatisfactory final evaluation, or if there is a desire to increase the rating, in this case, the points for the current assessment are canceled. The student takes a credit for the liquidation of academic debt (by writing a statement requesting to accept the credit), the maximum number of points is from 0 to 100 points.

The maximum number of points for current control is 40 points in the second semester. The final control takes place in the form of an exam, for the completion of which a student can receive a maximum of 60 points. All students must take the exam, as the module is not covered by the syllabus. The exam is written orally: two

theoretical questions, one practical question.

List of examination questions

1. The essence of IER. Objects and subjects of the IER.
2. Principles, levels and structure of the IER.
3. Factors of production in the world economy
4. Peculiarities of foreign economic relations of the states of the ancient world
